Entity names are followed by either their FIPS code or census code; parentheses indicate a census code.

- 1 'MCD*' indicates a false MCD. These are for Census Bureau use only.
- 2 The CCD and CDP boundaries represent statistical entities only and are not updated through the BAS.
- 3 Incorporated place name color corresponds to the incorporated place fill color.

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The Census Bureau stores primary and alternate road names, but only primary road names are used to label the roads on these maps.

The diagram consists of two parts. On the left, a table titled "Key to Adjacent Sheets" shows a 3x3 grid. The top row contains the numbers 5, 6, and a grey square. The middle row contains 8, 9, and a grey square. The bottom row contains three grey squares. The cell containing the number 9 is highlighted in yellow. On the right, a diagram titled "Sheet Location within Entity" shows a large yellow square representing the entity, with a smaller yellow square in its bottom-right corner representing the specific sheet. A blue border surrounds the large yellow square, and a blue border surrounds the smaller yellow square, indicating their relative positions within a larger context.
